

SVWUX South Bay Wireless Network

ID	Task Name
1	SVWUX South Bay Wireless Network
2	Resource Acquisition
3	BGP Autonomous System (AS) number
4	IPv4 address block
5	IPv6 address block
6	Network Policies
7	Acceptable Use Policy
8	Design
9	Document
10	Verify with legal consultant
11	User classifications
12	Design
13	Document
14	Emergency vs. regular usage
15	Design
16	Document
17	Support agreements
18	Design
19	Document
20	Verify with legal consultant
21	IP Address and Routing
22	Core-to-core routing
23	Design
24	Document
25	Core-to-gateway routing
26	Design
27	Document
28	Core-to-edge routing
29	Design
30	Document
31	802.11 Subsystem
32	ESSIDs and VLANs
33	Design
34	Document
35	Encryption and Authentication
36	Design
37	Document
38	Hardware

Project: SVWUX South Bay Wireless Date: Thu 8/10/06	Task		Rolled Up Milestone

	Rolled Up Task		Group By Summary	
	Rolled Up Critical Task		Deadline	

SVWUX South Bay Wireless Network

ID	Task Name
39	IP-based Routers
40	Identify requirements
41	Partner with vendors
42	Document
43	Develop configuration template(s)
44	802.11 Wireless Technology
45	Identify requirements
46	Partner with vendors
47	Document
48	Develop configuration template(s)
49	Power Sources
50	Identify requirements
51	Partner with vendors
52	Document
53	Develop configuration template(s)
54	Implementation Guide
55	Core Node
56	Design
57	Document
58	Gateway Node
59	Design
60	Document
61	Edge Node
62	Design
63	Document
64	Tools
65	Resource tracking system
66	Requirements
67	Design
68	Implement
69	Document
70	Deploy
71	Donation tracking system
72	Requirements
73	Design
74	Implement
75	Document
76	Deploy

SVWUX South Bay Wireless Network

ID	Task Name
77	User registration system
78	Requirements
79	Design
80	Implement
81	Document
82	Deploy
83	Management
84	Network Policies
85	Milestone 1 - Approve AUP
86	Milestone 2 - Approve user classifications
87	Milestone 3 - Approve gateway classifications
88	Milestone 4 - Approve emergency vs. regular usage
89	Milestone 5 - Approve support agreements
90	IP Addressing and Routing
91	Core-to-core routing
92	Milestone 1 - Approve design
93	Milestone 2 - Approve document
94	Core-to-gateway routing
95	Milestone 1 - Approve design
96	Milestone 2 - Approve document
97	Core-to-edge routing
98	Milestone 1 - Approve design
99	Milestone 2 - Approve document
100	802.11 Subsystem
101	ESSIDs and VLANs
102	Milestone 1 - Approve design
103	Milestone 2 - Approve document
104	Encryption and Authentication
105	Milestone 1 - Approve design
106	Milestone 2 - Approve document
107	Hardware
108	IP-based Routers
109	Milestone 1 - Approve requirements
110	Milestone 2 - Approve partnerships with vendors
111	802.11 Wireless Technology
112	Milestone 1 - Approve requirements
113	Milestone 2 - Approve partnerships with vendors
114	Power Sources
